Text of a Proclamation by Aguinaldo Proves tt.

That William Jennings Bryan is re sponsible for the prolongation of the insurrection in the Philippinea is proved by a proctain from issued by Aguin drin June 24 19 m in which resi a con le prot ne of independ on it its Democial are successful

A trend to east this preclamation, cut as of the vitue of a of Aguinako to his autordinali v 1 c the ats tick on Manila was given out by the War Department to day. The latter document disproves the claim that Agninaida was acting as the . lly of the Americans. No one about the government departments would contment upon them, declaring that they poke for themselves, and that the government had nothing to say in laboration of them.

AGUINALDO'S PROCLAMATION

"Filipinos: The situation is grow ing worse. The bases proposed for rriving at the honorable peace which is desired by the country have been rejected. Others are being set by the demonstrate that our independence is all united win it by dint of our reason and our rights, protected by the val-

"These hases of agreement were resched in the uscetting held on June 21, last, when they were read, discussed and approved. The eight bases were American soldiers hurning brands, those upon which were to be founded torches dipped in oll, hot water or anythe peace proceedings. The idea of thing that would carry death and the initiatora could not have been more elevated, being originated, as it was, by the statement torning the Na tional Council of Ministers; but men propose and others dispose, that the country shall have all the libertles compatible with the natural exercise of individual rights; but without an army of our own, which is the tigilyaleut of not acceding to our third basis which is just the one which we can depend on to win our independence, which it is seen the American Govern ment will not concede, apparently ignorisg the fact that when the people of a country wish it to be free, it

people who are now desirous of exer cising sovereignty over us. "But it is deceived, as are also deceived those men who, with more good faith than opportunity, pretend and keep on pretending that peace reigns in our country, in order that the light of liberty and independence may not illuminate the four cardinal points of our coveted territory, as will be the case, for chemistances are beginning to favor us.

THEIR HOPE IS BRYAN.

"Two elements are at present strnggling in the United States: those who desire the re election of McKiniey, and the grest Democratic party, which upholds the candidacy of Bryan.

"Let us calmly await the result, which in ail events must be favorable to us, for if the former should triumph the events would come to our reliet. на is beginning to happen now in the division they are making of the srmy of occupation in order to transfer them to the Oriental Empire; for It McKinley is defeated Bryan will give ua our independence. What matters it to us,

Sleeplessness marks the very climax of hunton suffering. It is only a step removed from insanity. When sleep no longer restores the exhausted nature, the longer restores the exhausted unture, the struggle with disease cannot fast long. The starting point of the nervous disorders which produce ill-thealth and sleeplessuess, is generally a diseased condition of the womanly organs. Restore these organs to sound health and the appetite comes back, the day's work to leaver wearing and sleep is sound no longer wearies, and sleep is sound and refreshing. Dr. Pierce's Favorite Prescription cures diseases of the wonanly organs. It stops the drains which weaken women; it heals the inflamma-

tlost and ulceration, and curea female There is no alcohol in "Favorite Prescription n and it is entirely free from opium, cocaine and all other narcotics. It is a temperance medicine.

"My health his been poor for meny years and I had taken a great deal of medicine, but it did nie no good," writes hirs. Rose Keinedy, of Springblinf, Adams Co., Wis. "Last August my health was very poor; I had no appetite and could not sleep. I wrole to Dr. Pierce and he kindly advised me to take his "Favorite Prescription." BLOOD POISON.

In some cases the external signs of Contagions Blood Poison are so slight that the vicinin is firmly within the grasp of the monster before the true nature of the disease is known. In other cases the blood is quickly filled with this poisonous virus and the swollen glands, mucus patches in the month, sores on scalp, ulcers on tongoe, sore thront, eruptions on skin, copper colored splotches, and falling hair and cycbrows the disease that, mover yet made a complete and permanent cure of Contagions Blood Poison. No matter in what stage or how hopeless the case may appear, even though pronounced incurable by the doctors, S. S. S. can be relied upon to make a rapid, permanent cure. S. S. S. is not a new, untried remember, an experience of nearly fifty years has proven it a sure and unfailing cure for this disease. It is the only putely vegetable blood medicine known.
